includes an overview of tactical emergency combat care, environmental hazards and treatment, bleeding control, and wound dressing, etc all this with different scenarios that will put you more close to the idea of reality of a situation.

Will cover the topic of Bleeding Control and Wound Management . This is design for civilians , law enforcement , security personnel and all the persons who want training in basic life saving medical intervention. That include catastrophic hemorrhage , bleeding control using tourniquet, bleeding control using hemostat agents and gauze pack , and opening an airway.

This program combines didactic lecture with skills sessions and clinical scenarios and bleeding control field simulation exercises.

Emergency Medical training is more and more needed in this days due to the increasing of active shooters and terrorist attacks also.

### 9. Warrior meditation techniques:

One of the most important part of training is the mind. We provide relaxation, auto suggestion and meditation techniques to control your mind in different stress situations so that you can take the best decisions.

**10. Counter Kidnapping** is one of the many sectors of learning for this Boot Camp. Counter Kidnapping is an adaptation of the military special operation course S.E.R.E .

S.E.R.E is an acronym for Survival, Evasion, Resistance, and Escape, a program that provides military personnel, and civilians with training in evading capture, survival skills.

Our role is to give the students all the knowledge for being capable of escaping illegal custody and disappearing back into a safe zone. When traveling you have to be aware of the tactics that criminals use, so that you don't end up becoming a victim. We will teach you the counter tactics you can use to protect you and your family. These skills could be used in a SHTF scenario, being kidnapped, economic breakdown, being stuck in a hostile country, evading capture, natural disaster, and much more!

Learn how to defeat/escape the most common restrains used (hand cuffs, zip ties, etc)

\*Learn to form, use, and conceal improvised weapons

\*Learn the basics of emergency medicine for bleeding, breaks, and strains/sprains.

\*Learn the principles for effective escape and counter tracking measures.

\*Learn what to say and not to say to hostile individuals and kidnappers; “etiquette”. How not to make things worse.

\*Learn the principles of proper camouflage for both yourself and your shelter site.

\*Participate in a mock kidnapping and interrogation, as the victim. This will get physical, be prepared.

\*Learn the mental tricks necessary for survival in a kidnapping, interrogation, and/or escape situation.

\*Learn the fundamentals of wilderness survival so as not to die of exposure should you decide to “make a run for it” to a friendly area.
